

Step 1. Onboarding: choose notification categories

On your first login, select the categories you work in (e.g., Electrician, Carpentry, etc.) so you receive notifications only for relevant jobs. Tap **“Next.”**

Step 2. Home (Provider): see nearby job requests

After logging in, in **“Job request list”** you’ll see requests posted by clients (with estimated price, date, and type). Tap **“See all”** to open the full list.

Step 3. Filter: find suitable jobs

In the full list, tap **Filter** (top right) and sort requests by **price**, **type (Home/Apartment)**, and **category**. Tap **“Apply”** (or **“Reset”** to return to default settings).

Step 4. Job details: review the client request

Open a job to see the **title**, **description**, **type**, **days remaining**, and the client’s **estimated price**. Check the **“About client”** section before sending your offer.

Step 5. Send offer: propose your price

Tap **“Send offer”**, enter your offer price, then tap **“Confirm.”** The offer is sent to the client (usually a job can receive offers from up to **4 providers**).

Step 6. Wait for acceptance: follow notifications

If a client chooses you, you’ll receive a notification and the job will appear in the **“Bookings”** tab with status **“Accepted.”**

Step 7. Assign the job: confirm you take it

Open the accepted booking and tap **“Assign”** / **“Assign provider”** to get the job assigned to you. After that, you can continue with travel and communication with the client.

Step 8. Contact & directions: talk to the client

In booking details you can use **Chat** or **Call** to confirm details. Tap **“Get directions”** to navigate to the client’s address.

Step 9. Start travel: head to the client

When it’s time, tap **“Start travel”** to mark that you’re on the way. If you can’t take the job, use **“Reject.”**

Step 10. In progress: perform the work

After arrival, keep communication with the client (chat/phone) and follow the booking details. The job status is shown on the booking screen.

Step 11. Finish: close the job

When the work is done, tap **“Finished”** and wait for the client’s confirmation (if approval is required).

My services: manage what you offer

In account settings you can view your added services and tap **“Add service”** to include a new service (name, category, area, price, images optional).
